MDVLCraft: Balance Report

Rankings of every archetype, vocation, race, martial class and job, and the changes proposed to even them out and to make every class a little weaker now that the Origin tab adds power. **Nothing has been changed yet**: this report is for your approval, and you can accept, drop or adjust any line.

Summary

The spread is large. On a 0-100 scale the best archetype (Necromancer) scores 100 and the worst (Wanderer) 0; the best and worst vocations are just as far apart. Four bases lead by a wide margin (Necromancer, Warlock, Berserker, Guardian) and five trail (Wanderer, Thief, Spirit, Stalker, Druid). Every top vocation contains one of the leaders; every bottom one contains Wanderer or Thief.

Why the leaders lead: a handful of passive Epic Fight skills are rated 8-9 and sit in many caster trees at once (Reserve Mana in 10 bases, Soul Protection, Vampirize and Heart Shield in 6-7 trees each). Two root skills decide the early game (Berserker starts with Demonic Assimilation, Necromancer with Raise Dead at level 6), and Guardian stacks more armour and resistance than anyone.

The Origin tab is efficient power creep. One origin half costs 28 points; a base costs about 211. Yet one half can give +6 health or +2.6 attack damage, while a whole base averages +12.8 health and +1.1 attack damage. Point for point the Origin tab is 5-8 times as strong, and two attack-damage origins (e.g. Warrior + Lumberjack) stack +5.3 attack damage, nearly a Berserker base.

The proposal has three parts:

1. **Everyone weaker, a little** (section 4): spells 10% weaker and 12% dearer, Modified abilities 8% weaker, every long-cooldown spell one level lower, the Origin tab's bonuses halved, and a 4 s minimum cooldown. Roughly 10-15% less damage and sustain across the board, felt both early (mana) and late (ultimates).

2. **Even out the classes** (sections 5-6): the strongest passives in fewer trees, the leaders' best skills trimmed, the trailers given better early skills and a little health and armour, and three utility skills each in Thief and Wanderer swapped for combat ones.

3. **Origins** (section 7): the two strongest races, two martial classes and two jobs toned down, and the weakest given small perks.

Projected result: the archetype spread falls from 100 to 37 points (vocations from 100 to 44), with every archetype between "C" and "A" instead of "D" to "S" (section 8).

How it was ranked

Every one of the 1,216 abilities in the trees (448 spells, 660 Modified abilities, 75 Epic Fight skills, 32 techniques) was rated 0-10 for the early game (few points, ~100 mana, iron gear, normal mobs) and the late game (full trees, endgame gear, Cataclysm bosses), against fixed anchors (Firebolt 3, Fireball 6, Black Hole 9), and flagged if clearly over- or under-tuned. Each tree's bonuses were totalled and turned into defence, offence and mobility points. An archetype's **late** score is 45% its best ten abilities, 30% defence, 17% offence and 8% mobility; its **early** score uses only what is within its first 15 points; **overall** is 60% late and 40% early. A vocation is scored on both bases plus its own skills. Ratings come from the abilities' numbers and descriptions, not from play, so treat single numbers as estimates; the big gaps are consistent across every measure.

1. Archetypes (current)

#	Archetype	Tier	Overall	Late	Early	Health	Armour	Why
1	Necromancer	S	100	100	93	+12	+6	Raise Dead at level 6 from the first point; Soul Protection, Second Wind and Reserve Mana make it the hardest caster to kill.
2	Warlock	S	92	97	79	+12	+0	Magic Immunity, Reversal, Black Hole and Magic Blade: the most offence of any base, plus near-total spell immunity.
3	Berserker	S	87	75	100	+18	+7.5	Demonic Assimilation is its root skill, so it wins the early game outright; +6.5 attack damage and Vampirize late.
4	Guardian	S	85	78	91	+17	+19.5	19.5 armour, 6 toughness and 24% damage resistance, plus Heart Shield and Wall Barrier: the best defence.
5	Monk	A	72	83	54	+9	+0	Strong defensive passives (Mindset, Focus, Dodge Master) and 261 mana; an average start.
6	Holy	A	66	74	52	+13	+6.75	Auto Heal, Second Wind and Resurrection: very hard to kill once mana is high.
7	Frost	A	65	65	64	+13	+7.5	Magic Immunity and a cheap Ice Age early; 360 mana.
8	Assassin	A	61	64	56	+12	+0	Good burst and Blood Step early; little defence.
9	Samurai	B	53	83	8	+17	+7.5	Strong late (Limit Break, Myriad Blades, Parry Master) but the weakest first 15 points of any melee base.
10	Jade	B	51	55	44	+3	+0	Only +3 health; carried by Impermanence's Verdict and Reserve Mana.
11	Water	B	50	49	52	+12	+0	The Howling Tempest for very little mana; otherwise average.
12	Brute	B	48	66	23	+29	+5.25	+29 health (the most) but few strong skills, and a slow start.
13	Lightning	B	46	50	41	+3	+0	Only +3 health; good damage spells.
14	Blaze	B	43	41	48	+12	+0	30% cooldown reduction and solid fire spells; nothing outstanding.
15	Druid	C	38	47	27	+13	+0	Summons and roots; few standout skills and a slow start.
16	Stalker	C	38	47	26	+12	+6.75	Ranged damage and mobility; little defence and a slow start.
17	Spirit	C	35	48	18	+13	+0	A weak start and few damage skills; Soul Protection and Mana Shield late.
18	Thief	D	16	31	0	+11	+0	Three combat slots go on utility (Ender Chest, Pickpocket, Astral Sense); a weak start.
19	Wanderer	D	0	0	9	+12	+0	Mostly travel and utility skills (Touch Dig, Starlight, food); the least combat power.

Scores are relative (0 = weakest, 100 = strongest of the 19). Health and armour are the whole base's bonus nodes.

2. Vocations (current)

Top 20

#	Vocation	Archetypes	Tier	Overall	Late	Early
1	Bloodreaver	Berserker + Necromancer	S	100	97	100
2	Lich	Warlock + Necromancer	S	93	100	82
3	Bone Warden	Guardian + Necromancer	S	87	94	77
4	Eldritch Fury	Berserker + Warlock	S	87	92	79
5	Jiangshi	Monk + Necromancer	S	86	100	66
6	Warlord	Guardian + Berserker	S	84	80	89
7	Butcher	Brute + Necromancer	S	84	94	71
8	Abyssal Bulwark	Guardian + Warlock	S	80	90	67
9	Revenant Ronin	Samurai + Necromancer	S	80	94	62
10	Reaper	Necromancer + Assassin	S	80	86	73
11	Draugr	Berserker + Frost	A	79	80	78
12	Draugr Lord	Frost + Necromancer	A	78	83	71
13	Temple Guard	Guardian + Monk	A	75	91	56
14	Brawler	Berserker + Monk	A	75	82	66
15	Exorcist	Holy + Necromancer	A	75	85	61
16	Hitokiri	Samurai + Berserker	A	74	83	62
17	Zealous Blade	Berserker + Holy	A	73	77	68
18	King of Curses	Samurai + Warlock	A	72	99	39
19	Slayer	Berserker + Assassin	A	72	70	75
20	Mind Flayer	Monk + Warlock	A	72	96	43

Bottom 20

#	Vocation	Archetypes	Tier	Overall	Late	Early
152	Firebug	Blaze + Thief	C	28	33	27
153	Snowbound Nomad	Frost + Wanderer	C	28	26	37
154	Spirit Hunter	Spirit + Stalker	C	28	42	16
155	Goemon	Samurai + Thief	C	27	50	4
156	Musashi	Samurai + Wanderer	C	27	41	15
157	Lantern Bearer	Holy + Wanderer	C	27	31	28
158	Thug	Brute + Thief	C	25	40	13
159	Magpie	Druid + Thief	C	23	30	21
160	Hashashin	Assassin + Wanderer	C	23	22	32
161	Mountain King	Brute + Wanderer	C	22	27	24
162	Storm Rider	Lightning + Wanderer	C	22	19	34
163	Poltergeist	Spirit + Thief	C	22	34	14
164	Xian	Jade + Wanderer	C	21	23	26
165	Voyager	Water + Wanderer	D	19	16	31
166	Ranger	Stalker + Wanderer	D	18	14	30
167	Desert Walker	Blaze + Wanderer	D	16	13	28
168	Spirit Pilgrim	Spirit + Wanderer	D	15	15	25
169	Wayfinder	Druid + Wanderer	D	13	13	21
170	Outlaw	Thief + Stalker	D	12	29	0
171	Vagabond	Thief + Wanderer	D	0	0	10

All 171 are listed in the appendix with their projected scores.

3. Origins (current)

Races are rated on their powers. Martial classes and jobs are rated on their powers and, separately, on their Origin-tab half (its 3 abilities and its bonus nodes, at the current strength).

Races

#	Race	Early	Late	Combat	Utility	Drawbacks	Verdict
1	Half-Ogre	8	8	8	4	eats constantly, unwieldy, bloodlust blurs vision	**over**: Extra health, a big axe bonus and immunity to poison and hunger make the best plain melee tank.
2	Infernal	7	8	8	5	villager prices much higher, iron golems hostile	**over**: Full fire immunity plus wither immunity trivialises the Nether, Ignis and wither threats late.
3	Arachnae	7	6	7	6	slightly less health, eats more	Wall climbing, night vision, poison and web crowd control add up to a strong fighting kit.
4	Dwarf	7	5	4	8	sinks in water, can't swim	Pickaxe-free stone mining, faster mining and darkvision are a great start; the combat value is small.
5	Wood elf	6	6	6	5	reduced melee damage	Strong for bows and gets spell power, but Epic Fight melee takes the damage penalty.
6	Siren	6	6	6	7	half healing on land	Area pacify and villager favour are strong; the slow healing on land costs it in most fights.
7	Stoneborn	6	6	6	6	15% slower, no sprint-jump, sinks	+4 armour and no knockback are a strong melee base, and the speed loss is a fair price.
8	Orc	6	6	6	3	-20% mana, higher villager prices	+30% Epic Fight stamina is strong for melee, offset by the mana and trade costs.
9	Revenant	6	6	6	5	healing hurts, Weakness II in sun, Smite	Undead ignore it, which is very strong, but the inverted healing and the sun weakness cost a lot.
10	Saurusfolk	6	5	6	5	smaller/fragile body	Speed, damage and a pounce are solid in melee; the lower health limits it late.
11	Ratfolk	6	5	6	6	-3 hearts, poor vision in water	Faster attacks, climbing, night vision and more loot balance its 3 lost hearts.
12	Kobold	6	5	6	6	-2 hearts, weaker when panicked	Fire breath and doubled gem drops make up for a fragile body.
13	Merling	5	5	3	7	none on land beyond aquatic tag	Very strong in water and in ocean builds, but neutral in most land fights.
14	Hobgoblin	5	5	3	6	less health, more damage taken	Loot luck and lasting gold gear balance out a fragile body.
15	Sporeling	5	5	4	6	much more fire damage, less health	Immunity to wither, poison and hunger plus a poison AoE balance its fire weakness.
16	Wolf-blooded	5	5	5	3	-10% damage by day	Night bonuses are fair against a day penalty; overall average.
17	Feline	5	4	3	5	-1 heart	Creeper immunity and silent steps help early; it does little against endgame threats.
18	Sharkfolk	4	5	6	5	-3 hearts, no shield, Hunger on land	**under**: Losing 3 hearts, shields and hunger on land outweighs the bonus damage outside the water.
19	Shadow	6	2	4	4	-3 HP, no armour above iron, exposed by sun/moon	**under**: Invisibility is good early, but the iron armour cap ruins it at the endgame.
20	Changeling	4	4	3	4	+25% damage taken while blending	**under**: Stealth that breaks on any action helps little, and it has no stat bonus.
21	Human	3	3	2	2	no powers at all	**under**: Has no powers, so it is strictly below every other race.
22	Kirin	3	3	2	4	-1 heart, hungrier	**under**: Only gives jump mobility and has more drawbacks than upsides.
23	Dryad	3	3	1	5	+50% fire damage, no meat	**under**: Faster crop growth is its only upside, against two real drawbacks.

Martial classes

#	Martial classe	Early	Late	Combat	Tab half	Drawbacks	Verdict
1	Monster Hunter	7	7	7	4.8	none	**over**: +15% damage to the most common mob types (undead and spiders) plus extra loot beats the other niche classes.

#	Martial classe	Early	Late	Combat	Tab half	Drawbacks	Verdict
2	Sentinel	6	7	7	5.3	must stand still	**over**: Free Resistance I (20% less damage) plus 20% less projectile damage is a large flat cut in damage taken.
3	Warrior	6	6	6	6.2	none	A small damage bonus that works with any weapon keeps it reliable at all stages.
4	Duelist	5	6	6	6.0	needs isolated targets	+10% damage on bosses and parry stamina scale nicely into the endgame.
5	Paladin	5	6	6	6.4	none	Stronger healing and an undead bonus are steady and scale well.
6	Archer	5	5	5	4.2	bow-only value	Accuracy and moving while drawing are solid for bows only.
7	Guardian	5	5	5	5.5	group-focused	Cheaper guarding is good, and the aura only helps in multiplayer.
8	Skirmisher	5	5	5	3.6	none	Speed on hit and cheaper dodges suit the Epic Fight dodge play.
9	Crossbowman	5	5	5	5.1	crossbow only	Faster reload and piercing are a solid niche for crossbows.
10	Spearman	5	5	5	5.6	spear only	Reach and the charge bonus are good for spears only.
11	Rogue	5	4	4	4.9	stealth needs 10s of sneaking	Stealth is useful but slow to start and gives no damage.
12	Beastmaster	5	4	4	4.7	pets die/struggle late	Buffed pets help early but fall off against bosses.
13	Bounty Hunter	4	4	4	4.2	illager-only	**under**: Illagers are a small part of the threats; only the emeralds stay useful.
14	Battle Mage	4	4	4	5.5	needs melee+spell weave	**under**: A single 10% mana discount with conditions is the weakest class kit.
15	Zealot	3	4	4	6.1	needs low health	**under**: A single small conditional stamina regen bonus.
16	Cavalry	3	3	2	3.5	only matters mounted	**under**: Mounted combat is rare in Epic Fight, so it is mostly a horse-breeding perk.
17	Corsair	3	3	3	4.3	boat-only damage	**under**: Boat combat is rare; the drowning buffer is minor.

Jobs

#	Job	Early	Late	Combat	Tab half	Drawbacks	Verdict
1	Cleric	5	9	6	5.8	none	**over**: Enchanting above vanilla caps plus stronger potions is the biggest endgame power of any job.
2	Blacksmith	5	7	4	4.0	none	Buffed crafted gear and cheaper repairs pay off in the endgame.
3	Merchant	4	8	1	2.7	none	**over**: Villagers that never run out of stock give infinite trades (mending, emeralds, XP) late.
4	Miner	7	5	1	3.2	none	Faster stone mining and no hunger from mining are strong early.
5	Lumberjack	7	5	1	3.8	none	Whole-tree felling and more planks speed up all early building.
6	Explorer	6	5	2	2.6	none	Free sprint costs and a starting kit make travel cheaper.
7	Farmer	6	4	1	2.3	none	Doubled harvests and bonemeal speed up the early food economy.
8	Alchemist	4	6	4	5.3	none	Longer buffs matter more with endgame potions.
9	Bard	5	5	3	5.8	horn needs goat horns; XP needs group	Group buffs are good in multiplayer and weak solo.
10	Rancher	5	4	1	2.0	none	Twin births and extra drops are a decent food and leather source.
11	Fisher	5	4	1	3.1	none	Faster fishing with doubled catches is an okay food and loot source.
12	Gravedigger	5	4	2	4.4	none	Faster shovels and extra undead loot are a fair middle-of-the-road job.

#	Job	Early	Late	Combat	Tab half	Drawbacks	Verdict
13	Cook	5	3	1	4.2	none	Better food helps early; it fades once food is solved.
14	Sailor	3	3	1	1.5	none	**under**: Breath and ship speed are rarely relevant.
15	Beekeeper	3	3	1	4.2	none	**under**: Bees rarely matter, and one extra comb is tiny.
16	Herbalist	3	2	1	4.2	none	**under**: Doubled flowers and longer stews are near-flavour.

4. Pack-wide changes (everyone a little weaker)

Change	Now	Proposed	Early game	Late game
Spell power of every tree spell (Iron's and addons)	x1.452	x1.30 (-10%)	Fewer one-shots of weak mobs	Boss kills ~10% slower
Spell mana cost	x0.756	x0.85 (+12%)	The biggest early nerf: ~1 cast fewer per bar	Small: big mana pools absorb it
Long-cooldown spells (60 s or more): 91 spells	level 3 (Raise Dead 6)	one level lower (Raise Dead 3)	Ultimates weaker when first unlocked	Ultimates ~15-30% weaker
Modified abilities' damage	x1.2	x1.1 (-8%)	Slightly weaker	Slightly weaker
Minimum spell cooldown	3 s	4 s	Cheap spam spells (Elden Ring, bolts) 25% slower	Same
Origin tab bonus nodes	30% of a vocation bonus each	15% (half)	Same	A full Origin tab gives half the stats: max +3 health or +1.35 attack damage per half
Origin tab ability nodes	2 points	3 points	Origin abilities come a little later	Same

Kept as they are: health and armour from the vocation trees' core spokes, the experience curve, and mob strength. Together these changes take roughly 10-15% off damage and sustain for every class without changing how any of them plays.

5. The strongest passives in fewer trees

Passive	Rating	Why it is strong	Now in	Proposed
Reserve Mana	8	Instant full mana refill below 10% with no stated cooldown is near-infinite mana.	10 trees	out of Necromancer, Warlock, Frost, Holy; kept in Blaze, Druid, Jade, Lightning, Spirit, Water; and, where its Epic Fight skill parameters allow: add 90 s cooldown
Soul protection	8	20% DR growing 1%/s with no stated cap; in long fights reaches very high negation.	7 trees	out of Necromancer; out of 5 vocations; kept in Spirit; and, where its Epic Fight skill parameters allow: cap total negation at 50%
Essence Extortion	8	Passive 20% lifesteal on all damage scales with endgame damage into huge sustain.	6 trees	out of 5 vocations; kept in Berserker; and, where its Epic Fight skill parameters allow: lifesteal 20% -> 12%
Heart shield	8	Regenerating 20-point shield doubles a 20 HP player's effective health for free.	6 trees	out of 5 vocations; kept in Guardian; and, where its Epic Fight skill parameters allow: shield 20 -> 10
Magic Immunity	9	"Extremely high" magic resistance nullifies most Cataclysm/spell boss damage passively.	2 trees	out of Warlock; kept in Frost; and, where its Epic Fight skill parameters allow: magic resistance -> 40%
Second Wind	8	Cancels a fatal hit for mana with no stated cooldown; repeatable cheat-death.	2 trees	out of Necromancer; kept in Holy; and, where its Epic Fight skill parameters allow: add 120 s cooldown
Magic Blade	8	Auto-casts selected spell on every swing end, doubling damage output of melee casters (still pays mana/cooldown).	5 trees	out of 2 vocations; kept in Warlock

Removed passives are replaced in place by an ordinary bonus node (+25 max mana for casters, +2 health otherwise), so no tree loses a node.

6. Archetype changes

Ability fixes come from the ratings (each is listed with its reason in the appendix). Stat changes are spread over the base's existing bonus nodes. "Moved to the first ring" means swapped with a weaker skill so it is reachable within the first 15 points.

Necromancer *overall 100 -> 65 (late 100 -> 55, early 93 -> 79)*

- Reserve Mana taken out (section 5)
- Soul protection taken out (section 5)
- Second Wind taken out (section 5)
- Raise Dead: level 6 -> 3
- Ash Pack: duration 10 -> 3 min

Warlock *overall 92 -> 50 (late 97 -> 59, early 79 -> 37)*

- Reserve Mana taken out (section 5)
- Magic Immunity taken out (section 5)
- Paralyzing Skreech: mana 11 -> 40
- Reversal: cooldown 4.5 -> 30 s

Berserker *overall 87 -> 53 (late 75 -> 62, early 100 -> 39)*

- Attack damage 6.5 -> 5
- Life steal 12% -> 8%
- Demonic Assimilation (Phase 1): mana 0 -> 100, cooldown 120 -> 180 s
- Soul Hunt: cap resets to 2 per cast
- Bloody Legacy (buff): cooldown 105 -> 40 s
- Demonic Assimilation (Phase 1) stops being the root skill: it moves ~20 points in, and the root becomes a normal opening skill

Guardian *overall 85 -> 59 (late 78 -> 59, early 91 -> 57)*

- Armour 19.5 -> 15
- Toughness 6 -> 4
- Damage resistance 24% -> 18%
- Wall Barrier: mana 19 -> 45
- Carian Greatsword: cooldown 3 -> 8 s

Monk *overall 72 -> 67 (late 83 -> 79, early 54 -> 47)*

- No direct change (only the pack-wide ones).

Holy *overall 66 -> 54 (late 74 -> 56, early 52 -> 52)*

- Reserve Mana taken out (section 5)
- Sacred Time Sand: cooldown 15 -> 45 s and add 20 mana cost

Frost *overall 65 -> 47 (late 65 -> 46, early 64 -> 50)*

- Reserve Mana taken out (section 5)
- Ice Age: mana 5 -> 50, cooldown 30 -> 60 s

Assassin *overall 61 -> 57 (late 64 -> 57, early 56 -> 56)*

- No direct change (only the pack-wide ones).

Samurai *overall 53 -> 56 (late 83 -> 78, early 8 -> 22)*

- Focus moved to the first ring (early game)

Jade *overall 51 -> 44 (late 55 -> 44, early 44 -> 44)*

- Strength I (buff): duration 2 -> 5 s
- Impermanence's Verdict: max-health cap 40% -> 20%

Water *overall 50 -> 45 (late 49 -> 41, early 52 -> 52)*

- The Howling Tempest: mana 8 -> 70

Brute *overall 48 -> 45 (late 66 -> 55, early 23 -> 32)*

- Health 29 -> 24
- Soul Grab moved to the first ring (early game)

Lightning *overall 46 -> 42 (late 50 -> 44, early 41 -> 41)*

- Electric Rain: mana 29 -> 55

Blaze *overall 43 -> 39 (late 41 -> 35, early 48 -> 48)*

- No direct change (only the pack-wide ones).

Druid *overall 38 -> 33 (late 47 -> 39, early 27 -> 28)*

- Armour 0 -> 3
- Aerial Collapse: cap damage vs bosses or cooldown 75 -> 120 s
- Rooting Stake: mana 11 -> 30, cooldown 22 -> 35 s
- Call the Pack moved to the first ring (early game)

Stalker *overall 38 -> 45 (late 47 -> 48, early 26 -> 42)*

- Armour 6.8 -> 9
- Barrage Volley moved to the first ring (early game)

Spirit *overall 35 -> 40 (late 48 -> 44, early 18 -> 35)*

- Health 13 -> 17
- Armour 0 -> 4
- Mana Shield moved to the first ring (early game)

Thief *overall 16 -> 30 (late 31 -> 43, early 0 -> 15)*

- Health 11 -> 17
- Armour 0 -> 4
- Attack damage 0 -> 1
- Doppelganger: double damage 100% -> 50% of player hits
- Evasion moved to the first ring (early game)
- Summon Ender Chest (utility) replaced by Shadowed Miasma
- Pickpocket (utility) replaced by Psychic Bolt
- Astral Sense (utility) replaced by Spectral Blink

Wanderer *overall 0 -> 32 (late 0 -> 35, early 9 -> 31)*

- Health 12 -> 20
- Attack damage 0 -> 2
- Armour 0 -> 3
- Teleport moved to the first ring (early game)
- Touch Dig (utility) replaced by Iron Slash
- Starlight (utility) replaced by Vortex Uppercut
- Conjure Refreshment (utility) replaced by Orbital Void

7. Origin changes

Races

Origin	Verdict	Proposed change
Half-Ogre	over	Stocky +health halve (e.g. +6 HP -> +3 HP)
Infernal	over	fire immunity -> 75% fire damage reduction
Human	under	give Human a small perk, e.g. +10% XP gain or +1 heart
Sharkfolk	under	Fragile -3 hearts -> -1 heart
Kirin	under	remove Nine Lives (-1 heart) or add +10% move speed
Shadow	under	let it wear diamond armour without being revealed, or raise the cap to diamond
Dryad	under	add +2 hearts in forests or 'regenerate on grass by day'
Changeling	under	drop Thin Mask or allow blending after 1.5 s

Martial classes

Origin	Verdict	Proposed change
Monster Hunter	over	Slayer 15% -> 10%
Sentinel	over	Hold the Line: Resistance I -> 10% damage reduction, or a 4 s delay
Cavalry	under	add +10% damage while mounted
Bounty Hunter	under	raise Outlaw Hunter to 15% and include ravagers/vexes
Battle Mage	under	add +5% spell power after a melee hit
Corsair	under	Boarding Fury also applies within 8 blocks of water, or add +5% damage
Zealot	under	stamina regen 10% -> 20% and add +5% damage below half health

Jobs

Origin	Verdict	Proposed change
Cleric	over	limit Enchantment Mastery to +1 level over the cap, or remove it for modded enchants
Merchant	over	add a restock cooldown instead of an infinite one (e.g. 2x normal restocks)
Sailor	under	make breath 3x and add +10% swim speed
Herbalist	under	add bonus to bone-meal on flowers and 25% chance for double crop seeds, or longer potion effects from stews
Beekeeper	under	extra honeycomb -> 1-3, and honey bottles also give Regeneration I for 5 s

Origin-tab abilities: Feast (Cook) keeps its group Strength for 60 s instead of 2 minutes. The utility ones rated low (Chum the Water, Tailwind, Weather Eye, Tracker's Instinct) are left alone on purpose: they are meant as non-combat perks.

8. Projected result

Archetype	Overall now	After	Late now	After	Early now	After	Tier now	After
Monk	72	**67**	83	79	54	47	A	A
Necromancer	100	**65**	100	55	93	79	S	A

Druid	38	**33**	47	39	27	28	C	C
Wanderer	0	**32**	0	35	9	31	D	C
Thief	16	**30**	31	43	0	15	D	C

All on the current scale (today's weakest = 0, strongest = 100), so the narrowing shows. The pack-wide changes in section 4 lower everyone further in absolute terms; they barely move these relative numbers.

Check in game after the changes: Raise Dead and Demonic Assimilation as early-game skills, Guardian's armour against Cataclysm bosses, whether Reserve Mana / Heart Shield / Auto Heal accept a cooldown through Epic Fight skill parameters, and how Thief and Wanderer feel with their new combat skills.

Appendix A: ability fixes

Ability	Source	Used by	Rating (early/late)	Why	Fix
Ice Age	spell	frost	7/8	Area-wide freeze for 5 mana on a 30 s cooldown.	mana 5 -> 50, cooldown 30 -> 60 s
Serenade	spell	frost_jade, monk_thief	6/6	5-mana channelled AoE sleep is very cheap CC.	mana 5 -> 30
Electric Rain	spell	lightning	6/7	Lightning aura on everything nearby for 29 mana is cheap for its AoE.	mana 29 -> 55
Call the Shadows	spell	guardian_necromancer, necromancer_jade, necromancer_spirit +2	7/8	Invulnerable summoned knights cannot be killed, so they tank and deal damage for free.	level 3 -> 2
Anti-Magic Slash	spell	berserker_warlock	7/8	Zero mana, 5 s cd projectile that also purges buffs and deletes spells.	mana 0 -> 25
Black Ward	spell	guardian_warlock	8/8	Free 18 s cd dome: projectile wipe, silence, knockback and resistance.	mana 0 -> 40, cooldown 18 -> 30 s
Demonic Assimilation (Phase 1)	spell	berserker	9/9	Free strength, speed, resistance and flight transformation; fight-winning at level 1.	mana 0 -> 100, cooldown 120 -> 180 s
Ash Pack	spell	necromancer	7/6	10 minute hound pack on a 180 s cooldown gives near-permanent summons for 51 mana.	duration 10 -> 3 min
Finished Margin	spell	brute_assassin	3/8	Executes branded foes below 25% HP, which skips the last 75-200 HP of a Cataclysm boss.	exclude bosses, or threshold 25% -> 10%
Hatch Cysts	spell	brute_druid, druid_assassin	6/6	20 minute mite swarm gives effectively permanent Rot stacking for one cast.	duration 20 -> 3 min
Unsigned Judgment	spell	warlock_necromancer	0/7	30 minute Margin Wither summon is near-permanent; gated only by the 80000 Corruption requirement.	duration 30 -> 5 min
Flowing Barrier	spell	guardian_monk, samurai_water	7/8	3 s cd damage reduction that also refunds mana; near-permanent uptime.	cooldown 3 -> 20 s
Mana Change Barrier	spell	water_holy	7/7	Zero-cost 22 s cd mana restore barrier; near-infinite mana.	mana 0 -> 30, cooldown 22 -> 45 s
Wall Barrier	spell	guardian	7/8	19 mana zone that repels mobs and grounds all hostile projectiles at level 3; huge value for the cost.	mana 19 -> 45
Prepared Cut Back	spell	guardian_monk, holy_wanderer	6/6	40% max HP heal plus food for 38 mana on 45 s cooldown beats Heal.	heal 40% -> 25%
Time Stop	spell	frost_thief, monk_warlock	6/9	Freezes all mobs and projectiles in an area while caster acts freely.	duration -40% or cooldown 90 -> 150 s
Raise Dead	spell	necromancer	8/7	Granted at level 6 for 76 mana: a well-armed undead squad that outclasses other level-3 summons.	level 6 -> 3
Lift Tap	spell	lightning_necromancer, water_necromancer	6/8	Free to cast and cuts all spell cooldowns plus regens mana, making loops of big spells possible.	cooldown 21 -> 60 s
Rooting Stake	spell	druid	6/6	Full root for 11 mana on 22 s cooldown, plus double damage on immune targets.	mana 11 -> 30, cooldown 22 -> 35 s
Sacred Time Sand	spell	holy	3/7	Free cast that cuts all spell cooldowns lets casters chain big spells late game.	cooldown 15 -> 45 s and add 20 mana cost
Totem Rite	spell	druid_jade, monk_wanderer, necromancer_wanderer +1	6/6	14 mana damage zone on a 4.5 s cooldown that also spawns undead totems; spammable for its cost.	cooldown 4.5 -> 15 s
Adula's Moonblade	spell	guardian_frost, guardian_spirit	7/7	29 mana chain of AoE greatsword slashes that freeze, on a 12 s cooldown; strong damage plus CC.	cooldown 12 -> 20 s
Carian Greatsword	spell	guardian	7/6	23 mana channelled wide AoE slashes on a 3 s cooldown; spammable melee AoE.	cooldown 3 -> 8 s

Ability	Source	Used by	Rating (early/late)	Why	Fix
Carian Phalanx	spell	guardian_berserker	7/6	Nine tracking blades for 39 mana on a 3 s cooldown; burst well above similar-cost bolts.	cooldown 3 -> 10 s
Comet Azur	spell	frost_warlock	8/8	30 mana sustained huge beam on a 4.5 s cooldown; boss-melting DPS.	cooldown 4.5 -> 20 s
Crystal Burst	spell	berserker_stalker	6/5	Ten homing shards for 14 mana while moving; damage per mana far above peers.	mana 14 -> 25
Founding Rain of Stars	spell	lightning_holy	7/7	Several seconds of stars around the caster on only a 6 s cooldown; near-permanent AoE uptime.	cooldown 6 -> 20 s
Meteorite	spell	blaze_warlock	7/6	17 mana channelled meteorite rain on a 4.5 s cooldown; cheap sustained AoE.	mana 17 -> 30
Impermanence's Verdict	spell	jade	3/8	AoE blind/slow plus up to 40% max HP damage shreds bosses.	max-health cap 40% -> 20%
Avalanche Stomp	modified	brute_frost	7/7	Leap plus 4 s AoE freeze on a 15 s cooldown gives very long group lockdown for 35 mana.	freeze 4 -> 2 s
Balanced Judgment	modified	holy_jade	6/8	Damage equals HP-percentage gap with no cap, so near-dead player vs full boss deals huge burst.	cap damage at 20
Barrow Howl	modified	berserker_frost	7/7	4 s cone freeze plus Weakness II every 20 s is long AoE hard CC for little mana.	freeze 4 -> 2 s
Blood Tithe	modified	berserker_necromancer	7/7	Strength II + 20% lifesteal for 15 mana, a third uptime; huge early burst for little cost.	cooldown 30 -> 45 s
Body Outside of Body	modified	monk_jade	7/8	Two clones copying your weapon scale with endgame gear and double melee output.	cooldown 60 -> 90 s
Brine Lance	modified	frost_water	6/7	3 s freeze + Slowness III on an 8 s cooldown for 25 mana is near-permanent lockdown.	cooldown 8 -> 14 s
Cold Meditation	modified	monk_frost	5/6	Zero-mana invulnerability that also restores mana and stamina on a 45 s cooldown.	cap at 4 s and cooldown 45 -> 60 s
Desert Dates	modified	assassin_wanderer	3/3	4 dates x 45 s every 120 s gives permanent Fire Resistance and Speed I.	4 dates -> 2
Doppelganger	technique	thief	6/7	Double that repeats all attacks roughly doubles melee DPS and adds swap/teleport utility.	double damage 100% -> 50% of player hits
Drunken Sway	modified	monk_thief	7/7	50% chance to evade every hit for 8 s on 30 s cooldown is huge mitigation vs bosses.	miss chance 50 -> 30%
Equinox Ring	modified	blaze_frost	6/6	4 s AoE freeze plus ignite on a 16 s cooldown is long group CC for 40 mana.	freeze 4 -> 2 s
Feast	modified	cook	5/5	2 min Strength I on a 90 s cooldown is permanent group uptime plus regen.	Strength I 2 min -> 60 s
Hurled Rimeaxe	modified	berserker_frost	6/6	3 s freeze on a 10 s cooldown for 25 mana is 30% hard-CC uptime plus damage.	freeze 3 -> 1.5 s
Hyoga Draw	modified	samurai_frost	7/7	4 s freeze on a 10 s cooldown, and frozen targets take double damage: 40% lock uptime.	freeze 4 -> 2 s
Indulgence Coin	modified	holy_thief	6/5	8 HP of absorption plus Weakness II every 20 s for 25 mana beats similar-cost defenses.	absorption 4 -> 2 hearts
Iron Gut	modified	berserker_monk	6/7	30% DR for 12 of every 30 s plus Strength procs is high uptime mitigation for 35 mana.	damage reduction 30 -> 20%
Malevolent Shrine	technique	samurai_warlock	5/10	Domain that cuts everything inside continuously; with big mana late game it wipes groups and bosses.	mana drain 10 -> 20 /s and add 120 s cooldown after close

Ability	Source	Used by	Rating (early/late)	Why	Fix
Mind Splinter	modified	monk_warlock	6/7	+50% damage taken for 6 s on a 12 s cooldown for 25 mana; 50% uptime on any boss.	damage taken 50% -> 25%
Ninefold Ring	modified	blaze_jade	6/7	AoE burn granting stacking Resistance (up to III, 60% DR) per enemy every 16 s makes crowds trivial.	max 3 -> 2 stacks
Numbing Venom	modified	frost_assassin	6/7	For 10 s every hit refreezes the target 2 s, a melee stunlock.	freeze once per target per 4 s
Malevolent Shrine: Open	technique	samurai_warlock	5/10	Unbarriered shrine cutting everything in a 45-block radius trivialises group and boss fights.	radius 45 -> 20 blocks, mana drain 10 -> 25 /s
Phantom Drift	modified	frost_spirit	7/7	Mobility plus 2 s freeze on everything passed every 10 s for 20 mana.	cooldown 10 -> 16 s
Pinning Frost	modified	frost_stalker	5/6	10 s of arrows that each freeze 2 s lets a bow user chain-lock a target.	freeze 2 -> 1 s
Raider's Feast	modified	berserker_wanderer	4/4	3 mutton x 45 s every 120 s gives permanent Strength I plus 18 HP of healing.	Strength I 45 -> 20 s
Road Onigiri	modified	samurai_wanderer	4/4	3 onigiri x 60 s every 120 s gives permanent Speed I and Haste I.	3 onigiri -> 1
Sanctified Icicle	modified	frost_holy	6/6	3 s hard freeze on an 8 s cooldown for 25 mana is near-permanent single-target lock.	cooldown 8 -> 14 s
Shadow Clone Jutsu	modified	assassin_thief, monk_assassin, samurai_assassin	7/8	Two weapon-copying clones scale with endgame gear and double melee output.	cooldown 60 -> 90 s
Shiro Fracture	modified	frost_jade	7/6	3 s freeze + 4 armour shred every 10 s for 25 mana; near-permanent lock on one target.	freeze 3 -> 1.5 s
Soul Harvest	modified	necromancer_spirit	7/6	Health + mana drain beam for only 6 mana; nearly free sustain.	mana 6 -> 30
Soul Hunt	technique	berserker	6/8	Cooldown resets on kills/guard-breaks let it chain indefinitely vs groups.	cap resets to 2 per cast
Stone Lotus Pose	modified	guardian_monk	7/7	Resistance III (60% DR) plus 12 HP heal every 30 s nearly negates boss phases.	Resistance III -> II
Superconductor	modified	frost_lightning	6/7	Chain lightning that freezes every target solid on a 12 s cooldown is AoE hard CC plus damage.	cooldown 12 -> 20 s
Temple Bell	modified	guardian_monk	7/7	AoE 2 s stun plus knockback every 18 s locks down groups for 35 mana.	cooldown 18 -> 25 s
Twin Tails	modified	berserker_jade	7/8	Every hit copied for 10 s on 30 s cd doubles melee DPS in packs.	cooldown 30 -> 45 s
Two Heavens	modified	samurai_wanderer	6/8	+50% melee damage for 10 of every 35 s scales fully with endgame weapons and enchants.	second strike 50 -> 30% damage
Undertow Frost	modified	frost_water	6/7	AoE pull plus 3 s freeze on all within 6 blocks for 35 mana every 18 s.	cooldown 18 -> 25 s
Underworld Gate	modified	spirit_assassin	9/9	10 s root on everything in 12 blocks plus 10 s invisibility for 40 mana trivialises fights.	root duration 10 -> 4 s, mana 40 -> 80
Winter Pact	modified	frost_warlock	6/7	Every hit freezes 2 s for 10 s, chain-locking targets including bosses.	freeze 2 -> 1 s, 3 s per-target cooldown
Withered Rose Vortex	spell	berserker_necromancer, berserker_spirit	6/8	Pulls, lifts and Withers whole groups on a 36 s cooldown; lift is hard CC with heavy pulse damage.	cooldown 36 -> 50 s
Abyssal Blast	spell	berserker_warlock, water_warlock	7/7	Boss-drop beam at only 38 mana on a 30 s cooldown; burst far above similar-cost spells.	mana 38 -> 80
Aerial Collapse	spell	druid	5/8	Percentage max-HP damage ignoring damage caps shreds 800 HP bosses.	cap damage vs bosses or cooldown 75 -> 120 s

Ability	Source	Used by	Rating (early/late)	Why	Fix
Reversal	spell	warlock	6/8	Reflects any incoming hit with extra power on a 4.5 s cooldown; near-permanent counter uptime against bosses.	cooldown 4.5 -> 30 s
The Howling Tempest	spell	water	8/9	Boss-drop tempest stacking Wet up to 10x costs only 8 mana.	mana 8 -> 70
Paralyzing Skreech	spell	warlock	7/7	11 mana pulsing AoE with armour shred, Chilled and lifesteal; very cheap for the payoff.	mana 11 -> 40
Chord Blast (buff)	spell	jade_thief	3/4	83 mana for a basic melody hit is poor value.	mana 83 -> 45
Invoice (buff)	spell	guardian_thief, spirit_thief, warlock_thief	3/3	Only triggers when the victim casts or heals, which most mobs never do.	also detonate after 5 s
Strength I (buff)	epicfight	jade, guardian_samurai, monk_spirit +3	3/2	Strength I for only 2 s after a perfect parry barely affects a fight.	duration 2 -> 5 s
Slow (buff)	spell	assassin_wanderer, monk_assassin, monk_druid +1	3/3	Single-target slow on a 120 s cooldown for 53 mana; poor value.	cooldown 120 -> 30 s
Ashen Renewal (buff)	modified	blaze_druid	2/2	Needs a burning kill for only 4 s of Regeneration II.	Regeneration II 4 -> 8 s
Brine Frenzy (buff)	modified	berserker_water	3/3	Absorption only in water/rain; too conditional.	work anywhere, x2 in water/rain
Carrion Beetles (buff)	modified	necromancer_druid	3/2	Silverfish die instantly and Poison I barely matters late.	Poison I -> II and 4 -> 6 silverfish
Infernal Sigil (buff)	modified	blaze_warlock	2/2	2 damage per spell for 8 s is negligible.	2 -> 4 damage per spell
Leviathan Hex (buff)	modified	water_warlock	2/2	6 total damage over 6 s; weak.	1 -> 2 damage per second
Radiant Dagger (buff)	modified	holy_assassin	2/2	No base damage outside undead; Glowing alone is not worth a point.	add 5 base damage
Sea Shanty (buff)	modified	corsair	2/2	+10% attack speed for 15 s is too small for 35 mana.	attack speed 10% -> 20%
Trophy Strength (buff)	modified	monster_hunter	2/2	Max +20% after 10 undead/arthropod kills; rarely meaningful.	+2% -> +4% per kill
Bloody Legacy (buff)	spell	berserker	4/4	Single line strike locked behind a 105 s cooldown; weaker than cheaper slashes.	cooldown 105 -> 40 s
Sticky Steed Summon (buff)	spell	brute_wanderer	1/5	378 mana exceeds most mana pools; uncastable for most players.	mana 378 -> 150
