# MDVLCraft skill trees

Version 1.9.43. Totals for the **whole** tree. Pick 2 archetypes; each tree gives 1 point to start and 1 per level, with no level cap. Percentages add to the base; Max Health is in half-hearts. Abilities (spells and techniques) go on the ability wheel; Epic Fight skills go in the Combat Skills box of the abilities screen. Core stats are in this table only; bonuses shared by a whole class are listed once, at the top of its page.

Everyone knows Guard, Parrying, Parry – Absolute Deflection and the souls-like dodge and step. Assassin, Phantom, Scout and Thief also get Precise Parry. Hostile mobs have 20% more health and deal 10% more damage. Players also pick a race, a Martial class and a job (Origins) on first joining; these are listed at the end and are separate from the archetype trees.

# Origins

Picked on first joining, separately from the archetype trees: one race and one class. A race or class can be changed later with an Orb of Origin (an enchanted golden apple surrounded by eight gold ingots).

## Races

| Race | Powers |
|---|---|
| **Arachnae** | **Climber** The fine bristles on the Arachnae's legs allow them to climb up walls.<br>**Many Eyes** The Arachnae's eight eyes are all adpated to darkness, and allow them to see clearly even with very little light.<br>**Venomous Bite** Arachnae's fangs contain venom, and every attack has a chance to inflict poison.<br>**Web Slinger** Arachnae can, on command, spin webs in which their opponents will be immobilised for a short while.<br>**Bottomless Stomach** Arachnae require a larger quantity of food to stay alive.<br>**Fragile** The Arachnae's exoskeleton is more vulnerable to damage. They have slightly less health than a regular human.<br>**Master of Webs** You navigate cobweb perfectly, and are able to climb in them. When you hit an enemy in melee, they get stuck in cobweb for a while. Non-arthropods stuck in cobweb will be sensed by you. You are able to craft cobweb from string. |
| **Changeling** | **Mimicry** Sneak for 3 seconds to blend in: mobs and illagers ignore you until you stand up or attack.<br>**Thin Mask** While blending in, you take 25% more damage. |
| **Dryad** | **Green Thumb** Crops and saplings around you grow faster.<br>**Kindling** You take 50% more damage from fire.<br>**Vegetarian** You can't digest any meat. |
| **Dwarf** | **Dwarven Tech** Dwarves are capable of mining stone without a pickaxe, and mine anything faster than others.<br>**Nocturnal Eyes** Dwarves can focus to see clearly without needing any light source.<br>**Dense** Dwarves are extremely heavy for their size; they sink rapidly in water. |
| **Feline** | **Strong Ankles** You are able to jump higher by jumping while sprinting.<br>**Velvet Paws** Your footsteps don't cause any vibrations which could otherwise be picked up by nearby lifeforms.<br>**Nine Lives** You have 1 less heart of health than humans.<br>**Catlike Appearance** Creepers are scared of you and will only explode if you attack them first.<br>**Nocturnal** You can slightly see in the dark when not in water.<br>**Soft Landing** You always land on your feet: fall damage is reduced by 25%. |
| **Half-Ogre** | **Bloodlust** Ogres are known to unpredictably fly into a blinding rage, where they can stomp through a horde of foes quickly but can barely make out what's happening around them.<br>**Ravager** Axes feel right in an Ogre's hand; this comfort allows them to swing with much more force.<br>**Lead Belly** Ogres care little for what they eat. Food is food. They do not experience poison or hunger.<br>**Stocky** Ogres' thick skin and dense bones make them able to tank many more hits than others.<br>**Ravenous** Ogres are almost never full; they need to eat near constantly to stay satisfied.' |
| **Hobgoblin** | **Greedy** Hobgoblins have a special relationship with treasure: they find more loot with golden weapons and take less damage in a full set of golden armor.<br>**Careful Hoarder** Gold in a goblin's hands lasts for much longer than most others who are careless with it.<br>**Cunning** Goblins are clever creatures, and know where to find more rare loot most others would miss.<br>**Frail** Due to their small stature, goblins' have less health and are more prone to damage. |
| **Human** | – |
| **Infernal** | **Fire Immunity** You are immune to all types of fire damage.<br>**Hellborn** You are immune to the Wither effect.<br>**Nether Kin** Piglins leave you alone unless you attack one.<br>**Infamy** Villagers distrust you: their prices are much higher, and iron golems attack you. |
| **Kirin** | **Nocturnal** You can slightly see in the dark when not in water.<br>**Nine Lives** You have 1 less heart of health than humans.<br>**Strong Ankles** You are able to jump higher by jumping while sprinting.<br>**Exhaustion** You get hungry a little faster.<br>**Jump Boost** You can launch yourself due to your strong legs and nature.<br>**Unrivaled Speed** As a special ability, you gain high speed for a short time. |
